

charges provided that such charges must be forgiven, refunded, or credited when a subscriber has complained about such charges and either this Commission, the Federal Trade Commission, or a court of competent jurisdiction has found or the carrier has determined, upon investigation, that the service has been offered in violation of federal law or the regulations that are either set forth in this subpart or prescribed by the Federal Trade Commission pursuant to titles II or III of the TDDRA. Carriers shall observe the record retention requirements set forth in § 42.6 of this chapter except that relevant records shall be retained by carriers beyond the requirements of part 42 of this chapter when a complaint is pending at the time the specified retention period expires.

(b) Any carrier assigning a telephone number to a provider of interstate pay-per-call services but not providing billing and collection services for such services, shall, by tariff or contract, require that the provider and/or its billing and collection agents have in place procedures whereby, upon complaint, pay-per-call charges may be forgiven, refunded, or credited, provided that such charges must be forgiven, refunded, or credited when a subscriber has complained about such charges and either this Commission, the Federal Trade Commission, or a court of competent jurisdiction has found or the carrier has determined, upon investigation, that the service has been offered in violation of federal law or the regulations that are either set forth in this subpart or prescribed by the Federal Trade Commission pursuant to titles II or III of the TDDRA.

[58 FR 44773, Aug. 25, 1993, as amended at 59 FR 46771, Sept. 12, 1994]

§ 64.1512 Involuntary blocking of pay-per-call services.

Nothing in this subpart shall preclude a common carrier or information provider from blocking or ordering the blocking of its interstate pay-per-call programs from numbers assigned to subscribers who have incurred, but not paid, legitimate pay-per-call charges, except that a subscriber who has filed a complaint regarding a particular pay-per-call program pursuant to proce-

dures established by the Federal Trade Commission under title III of the TDDRA shall not be involuntarily blocked from access to that program while such a complaint is pending. This restriction is not intended to preclude involuntary blocking when a carrier or IP has decided in one instance to sustain charges against a subscriber but that subscriber files additional separate complaints.

§ 64.1513 Verification of charitable status.

Any common carrier assigning a telephone number to a provider of interstate pay-per-call services that the carrier knows or reasonably should know is engaged in soliciting charitable contributions shall obtain verification that the entity or individual for whom contributions are solicited has been granted tax exempt status by the Internal Revenue Service.

§ 64.1514 Generation of signalling tones.

No common carrier shall assign a telephone number for any pay-per-call service that employs broadcast advertising which generates the audible tones necessary to complete a call to a pay-per-call service.

§ 64.1515 Recovery of costs.

No common carrier shall recover its cost of complying with the provisions of this subpart from local or long distance ratepayers.

Subpart P—Calling Party Telephone Number; Privacy

SOURCE: 59 FR 18319, Apr. 18, 1994, unless otherwise noted.

§ 64.1600 Definitions.

(a) *Aggregate information.* The term “aggregate information” means collective data that relate to a group or category of services or customers, from which individual customer identities or characteristics have been removed.

(b) *ANI.* The term “ANI” (automatic number identification) refers to the delivery of the calling party’s billing number by a local exchange carrier to any interconnecting carrier for billing

or routing purposes, and to the subsequent delivery of such number to end users.

(c) *Calling party number.* The term Calling Party Number refers to the subscriber line number or the directory number contained in the calling party number parameter of the call set-up message associated with an interstate call on a Signaling System 7 network.

(d) *Charge number.* The term “charge number” refers to the delivery of the calling party’s billing number in a Signaling System 7 environment by a local exchange carrier to any interconnecting carrier for billing or routing purposes, and to the subsequent delivery of such number to end users.

(e) *Privacy indicator.* The term Privacy Indicator refers to information, contained in the calling party number parameter of the call set-up message associated with an interstate call on a Signaling System 7 network, that indicates whether the calling party authorizes presentation of the calling party number to the called party.

(f) *Signaling System 7.* The term Signaling System 7 (SS7) refers to a carrier to carrier out-of-band signaling network used for call routing, billing and management.

[60 FR 29490, June 5, 1995]

§64.1601 Delivery requirements and privacy restrictions.

(a) *Delivery.* Common carriers using Signaling System 7 and offering or subscribing to any service based on Signaling System 7 call set functionality are required to transmit the calling party number associated with an interstate call to interconnecting carriers.

(b) *Privacy.* Originating carriers using Signaling System 7 and offering or subscribing to any service based on Signaling System 7 call set up functionality will recognize *67 dialed as the first three digits of a call (or 1167 for rotary or pulse-dialing phones) as a caller’s request for privacy on an interstate call. Such carriers providing line blocking services will recognize *82 as a caller’s request that privacy not be provided on an interstate call. No common carrier subscribing to or offering any service that delivers calling party number may override the privacy indicator associated with an interstate

call. Carriers must arrange their CPN-based services in such a manner that when a caller requests privacy, a carrier may not reveal that caller’s number or name, nor may the carrier use the number or name to allow the called party to contact the calling party. The terminating carrier must act in accordance with the privacy indicator unless the call is made to a called party that subscribes to an ANI or charge number based service and the call is paid for by the called party.

(c) *Charges.* No common carrier subscribing to or offering any service that delivers calling party number may

(1) Impose on the calling party charges associated with per call blocking of the calling party’s telephone number, or

(2) Impose charges upon connecting carriers for the delivery of the calling party number parameter or its associated privacy indicator.

(d) *Exemptions.* §64.1601 shall not apply to calling party number delivery services

(1) Used solely in connection with calls within the same limited system, including (but not limited to) a Centrex, virtual private network, or private branch exchange system;

(2) Used on a public agency’s emergency telephone line or in conjunction with 911 emergency services, or on any entity’s emergency assistance poison control telephone line;

(3) Provided in connection with legally authorized call tracing or trapping procedures specifically requested by a law enforcement agency.

[60 FR 29490, June 5, 1995; 60 FR 54449, Oct. 24, 1995]

§64.1602 Restrictions on use and sale of telephone subscriber information provided pursuant to automatic number identification or charge number services.

(a) Any common carrier providing Automatic Number Identification or charge number services on interstate calls to any person shall provide such services under a contract or tariff containing telephone subscriber information requirements that comply with this subpart. Such requirements shall:
